

BLOODSTOCK CROSS ANALYSIS

Read the cross. Back the edge.

Tattersalls Ireland September Yearlings 2026 — 540 lots · 93 colour-coded (68 full · 25 partial)

How to read every number

The six headline numbers (one line per lot)

Data point	What it tells you
Sire Ave	This sire's own baseline average rating across his runners generally – the constant starting point for his side of the pedigree.
Damsire Ave	The dam's sire's own baseline average rating, on the same basis – the constant starting point for the bottom line.
Mare Perf %	How much better the mare's foals run versus the expected cross average. Around 100 is par.
Sire + Mare %	The sire's strength and the mare's strength combined into a single read on both halves of the pedigree.
Sire × Damsire Cross	The average result of this exact sire-over-damsire nick, counted only where enough runners exist. The most telling figure — where it is proven the cross is a known quantity, and where it is high it can outperform the sire and mare lines. Where it is absent or only an early reading, the score reads as potential. Unlike the other five figures, the Cross sits on its own raw-ratings scale rather than the ~100-is-par percentage scale.
Overall Score	Bruce's combined read across Mare Perf, Sire+Mare and the Cross (or of whichever of those is available), colour-banded on his own worksheet.

The colour scale

Band	Reading
Red	Very strong
Blue	Strong
Yellow	Very good
Green	Good
Grey	Above average

– (no colour)	Not yet colour-banded – either under par or not enough rated runners to read.
---------------	---

Colour bands are taken directly from Bruce’s own worksheet rather than a fixed public cut-off, since they reflect his own judgement on this catalogue.

Full colour vs partial

Rated produce	How it is shown
3 or more	Full coloured header strap, straight (non-italic) figures, and a comment.
Exactly 2	Only the Score box is colour-coded; the lot’s figures and comment are shown in italic – unless a proven sire × damsire cross exists for this pairing, in which case it is shown straight.
Fewer than 2	No colour, no comment – not enough rated runners yet to read.

Sale history

Where shown	What it means
“Foal: …” in the header	This catalogue lot’s own prior sale as a foal, before becoming this yearling – shown to the right of the sex. Only appears where such a sale is on record.
Price	That previous foal’s own recorded sale price. May be blank if no sale was found.

VERDICT **Good**

A good read overall at 127.8%, built on a 121.9% mare figure and a 184.9% sire+mare cross-check, with an early Mehmas (IRE) x Invincible Spirit (IRE) cross reading of 76.6 - not yet enough runners for a proven nick. Mare and sire+mare alone point to a strong level - this one was dragged back to good by a comparatively low cross reading of 76.6.

VERDICT **Good**

A good read overall at 126.6%, built on a 110.0% mare figure and a 182.9% sire+mare cross-check, with an early Sea The Stars (IRE) x Exceed And Excel (AUS) cross reading of 86.8 - not yet enough runners for a proven nick. Mare and sire+mare alone point to a strong level - this one was dragged back to good by a comparatively low cross reading of 86.8.

VERDICT

Good

A good read overall at 123.5%, built on a 118.8% mare figure and a 185.2% sire+mare cross-check, with an early Phoenix of Spain (IRE) x Dubawi (IRE) cross reading of 66.7 - not yet enough runners for a proven nick. Mare and sire+mare alone point to a strong level - this one was dragged back to good by a comparatively low cross reading of 66.7. Based on just two rated produce so far - one to watch as the page fills in.

VERDICT **Very good**

A very good read overall at 142.2%, built on a 137.5% mare figure and a 204.4% sire+mare cross-check, with an early Pinatubo (IRE) x Oasis Dream (GB) cross reading of 84.8 - not yet enough runners for a proven nick. Mare and sire+mare alone point to a very strong level - this one was dragged back to very good by a comparatively low cross reading of 84.8.

VERDICT **Very strong**

A very strong read overall at 164.9%, built on a 166.7% mare figure and a 237.0% sire+mare cross-check, with an early Camelot (GB) x Shamardal (USA) cross reading of 91.0 - not yet enough runners for a proven nick.

VERDICT **Good**

A good read overall at 118.3%, built on a 105.0% mare figure and a 170.7% sire+mare cross-check, with an early Dark Angel (IRE) x Dansili (GB) cross reading of 79.2 - not yet enough runners for a proven nick. Mare and sire+mare alone point to a very good level - this one was dragged back to good by a comparatively low cross reading of 79.2.

VERDICT Good

A good read overall at 120.6%, built on a 110.0% mare figure and a 172.8% sire+mare cross-check, with an early Kodiak (GB) x Rip Van Winkle (IRE) cross reading of 79.0 - not yet enough runners for a proven nick. Mare and sire+mare alone point to a very good level - this one was dragged back to good by a comparatively low cross reading of 79.0.
